

Press Release

Twisted Storage CEO to Speak at Boston Cloud Computing Group

West Newbury, MA – September 15, 2009 Twisted Storage announced today that CEO Dr. Charles Wegrzyn will be a featured speaker at the September 23 meeting of the Boston Cloud Computing Group.

Chuck will be providing an overview of enterprise cloud storage technologies and applications including the implementation hybrid cloud storage – a dynamically scalable combination of private and public clouds.

The Boston Cloud Computing Group is dedicated to sharing, evangelizing and promoting the next big wave in technology, Cloud based services: software (SaaS – Software as a Service), Platform (PaaS -Platform as a Service) etc. The group has a specific focus on the end users of cloud services; people who have dealt or are dealing with the move from on-premise to the cloud and either have faced or are facing business and technical issues like: security, management, integration etc. The group also discusses how the cloud impacts the different business units in an organization such as how product management or IT changes when building or using a Cloud / SaaS product.

About Twisted Storage

Twisted Storage, Inc. is the developer and provider of Twisted Storage software - software that converts multiple storage repositories, legacy or green-field, into a single petabyte-scale cloud for unstructured data, digital media storage, and archiving. The Twisted Storage Enterprise Cloud provides federated search, electronic data discovery with lock-down, and policy-driven file management including indexing, retention, security, encryption, format conversion, information lifecycle management, and automatic business continuity.

Twisted Storage is headquartered in West Newbury, Massachusetts and is privately held. For more information please visit www.TwistedStorage.com. Press contact: Stevan Vigneaux at Stevan@TwistedStorage.com or 508-878-7484.
